AMNNISA PLATFORM · OFFICIAL GUIDE

# Website Owner & Administrator Manual

A complete, non-technical guide to managing, updating, and operating the Amnnisa Women's Safety & Empowerment Platform with ease.

### Welcome to Amnnisa

The Amnnisa platform was custom-engineered to deliver **high-speed safety guidance**, **confidential harassment reporting**, and **empowering community resources**. As the administrator, you have full control over all content, team members, hotlines, and form submissions directly from your WordPress dashboard—with zero coding required.

Chapter 9: Frequently Asked Questions & Support 09

💡 **Administrator Tip:** Bookmark your login link `https://amnnisa.com/wp-admin` on your computer and phone so you can quickly inspect new reports and inquiries wherever you are.

# Chapter 1: Logging into Your Dashboard

GETTING STARTED

Your WordPress dashboard gives you a centralized control room to manage your entire platform.

### 1 Open the Login Link

Open any web browser (Chrome, Edge, Safari, Firefox) and go to: `https://amnnisa.com/wp-admin`

### 2 Enter Your Credentials

Enter your administrator Username and Password, then click **Log In**.

### 3 Overview of Key Menu Items

Once logged in, look at your left-hand sidebar menu:

| MENU ITEM | WHAT YOU USE IT FOR |
|---|---|
| 🌸 **Submissions** | View, read, and manage all incoming case reports, inquiries, ideas, and volunteer applications. |
| 👥 **Team Members** | Add new team members, edit titles/departments, update photos, or remove team members. |
| 🎨 **Appearance → Customize** | Live visual editor to edit all text, descriptions, buttons, photos, and hotlines with real-time preview. |
| ⚙️ **Settings → Reading** | Controls your front page display. |

# Chapter 2: Managing Form Submissions & Reports CORE FUNCTIONALITY

The website has 5 active interactive forms: **Report a Case**, **Contact Us**, **Join the Mission**, **Share an Idea**, and **Track Status**. Whenever a visitor submits any form, two things happen instantly:

- The submission is permanently logged in your WordPress Admin database.
- An immediate email alert with full details is dispatched to `amnnisafoundation@gmail.com`.

### Viewing Submissions in WP Admin:

**A** **Access via Left Menu or Top Admin Bar**

Click on **Submissions** in the left sidebar, or click the top shortcut 🌸 **Amnnisa Submissions (X)** from anywhere on the site.

**B** **Understanding the Submissions Table**

| COLUMN | MEANING & HANDLING |
|---|---|
| **Reference ID** | Unique tracking code (e.g. `AN-2026-LON81`) given to the submitter so they can track their report privately. |
| **Type** | The form submitted (*Case report*, *Contact message*, *Join mission*, *New idea*). |
| **Submitter** | Name and contact info. If the user checked "Report Anonymously", it clearly displays `♡ Anonymous`. |
| **Urgency** | Indicates priority: **Emergency** (Red badge), **High** (Pink badge), or **Standard**. |
| **Details & Message** | Click on `► View submitted details` to expand and read the full report, location, and answers. |
| **Status** | Displays `✓ Sent` if delivered to Gmail, or `Logged` if saved locally. |
| **Actions** | Click **Resend** to re-dispatch the email alert, or **Delete** to remove the record. |

🔒 **Confidentiality Protocol:** In accordance with Amnnisa's mission, treat all case reports with strict privacy. Do not disclose anonymous submitter details or IP information to third parties.

# Chapter 3: Setting Up Live Email Delivery (Gmail SMTP) EMAIL ALERTS

Standard web hosts block basic PHP `mail()` or cause emails to land in spam. Amnnisa includes a **built-in SMTP engine** that connects directly to Google's official mail servers using a secure 16-letter Google App Password.

### 1 Generate Google App Password (2 Minutes)

1. Log into your Google account: `amnnisafoundation@gmail.com`.
2. Open: **https://myaccount.google.com/security**
3. Ensure **2-Step Verification** is turned **ON**.
4. Go directly to: **https://myaccount.google.com/apppasswords**
5. Under "App name", type: `Amnnisa Website` and click **Create**.
6. Google will display a yellow box with a **16-letter password** (e.g. `abcd efgh ijkl mnop`). Copy this code.

### 2 Enter Settings in WordPress Customizer

In your WordPress Admin, go to **Appearance → Customize → Amnnisa Site Content & Sections → 12. SMTP Email Delivery**:

| SETTING FIELD | EXACT VALUE TO ENTER |
|---|---|
| Enable Custom SMTP Delivery | ☑ **Check this box** |
| SMTP Host | `smtp.gmail.com` |
| SMTP Port | `587` |
| Encryption | `tls` |
| SMTP Username | `amnnisafoundation@gmail.com` |
| SMTP App Password | *Paste your 16-letter Google code here* |
| From Email Address | `amnnisafoundation@gmail.com` |
| From Name Display | `Amnnisa Platform` |

Click the blue **Publish** button at the top.

### 3 Test with 1 Click

Go to **Submissions** in your left menu and click the button at the top:

👉 ✉ **Send Test Email to amnnisafoundation@gmail.com**

A green checkmark will appear confirming that email delivery is working 100%!

# Chapter 4: Managing Team Members

TEAM PAGE

The Amnnisa theme features a dedicated **Team Members** post type. All 6 founding members are already pre-loaded into your database. You can edit their roles, change photos, delete anyone, or add new members anytime.

## 1 Editing an Existing Team Member

1. Go to **Team Members** in your left menu.
2. Hover over any member (e.g. *Aliza Shah*) and click **Edit**.
3. Edit their **Name** in the title box.
4. Under **Team Member Details & Photo**, edit:
   - **Title / Role** (e.g. `Co-Founder`)
   - **Department / Function** (e.g. `Marketing & PR`)
5. **Change Photo**: Either upload a new photo in the **Featured Image** box on the right, OR paste a direct URL into the **Photo Image URL** box.
6. Click **Update**. Your changes will immediately reflect on the live website.

## 2 Adding a New Team Member

1. Go to **Team Members** → **Add New Member**.
2. Enter the member's full name in the title field.
3. Fill in their Role and Department.
4. Upload their photo in the **Featured Image** box (Square 1:1 ratio recommended, e.g. 400×400px).
5. Click **Publish**. The new member card appears instantly in the team grid.

## 3 Deleting or Reordering Members

- **To Remove a Member**: Hover over their name in the Team list and click **Trash**.
- **To Reorder Members**: In the member edit screen, expand **Page Attributes** on the right and adjust the **Order** number (1, 2, 3, etc.).
- **To Reset Defaults**: Click the `↺ Restore Default 6 Members` button in the notice banner at the top of the Team Members screen.

> 💡 **Founder Spotlight:** Homair Nisar's spotlight card at the top of the Team page is managed under **Appearance → Customize → 9. Our Team — Founder Spotlight**.

# Chapter 5: Editing Website Content via Live Customizer VISUAL EDITOR

You can edit every heading, paragraph, button text, image, and hotline with instant live preview. You never have to touch any code.

Go to: **Appearance → Customize → Amnnisa Site Content & Sections**

| CUSTOMIZER SECTION | WHAT YOU CAN EDIT HERE |
|---|---|
| **0. Header Brand, Logo & Tagline** | Brand name ( `Amnnisa` ), header tagline ( `SAFETY PLATFORM` ), and custom logo upload. |
| **1. Home — Hero Section** | Hero headline lines 1, 2, and 3, description text, primary and secondary CTA buttons, and main hero photo. |
| **2. Home — Our Pillars (5)** | Icons and descriptions for all 5 pillars: *Secure*, *Dignity*, *Empower*, *Guide*, and *Collaborate*. |
| **3. Home — Take Action Cards & Track** | Titles and blurbs for the 4 engagement cards, plus the **Track your report** bar text and custom icon. |
| **4. Home — Founder Quote** | Homair Nisar quote text, author line, and link destination button. |
| **5. Home — How It Works (3 Steps)** | Step 1 (*Tell us*), Step 2 (*Get guided*), and Step 3 (*Stay protected*) content. |
| **6. Home — Emergency Hotlines** | Hotline box title, disclaimer, and all 4 emergency numbers (15, 1099, 1122, 9911). |
| **7. Home — Stats & Incubation** | Stat values and labels (*MUET*, *100%*, *1-click*), and MUET Incubation Center logo image. |
| **8. About Us Page & FAQs** | About Us story, 3 guidance cards (Legal, Technical, Moral), and 4 Common Questions with expandable answers. |
| **9. Our Team — Founder Spotlight** | Homair Nisar's badge, title, bio, and founder portrait photo. |
| **10. Contact & Social Channels** | Official email, Instagram URL and handle ( `@amannisa_pk` ), WhatsApp channel link, and campus address. |
| **11. Footer Content & Copyright** | Footer mission statement, founder credit, and copyright notice. |
| **12. SMTP Email Delivery** | Gmail SMTP credentials for authenticated email dispatch. |

**Always Remember to Publish:** Whenever you make changes in the Customizer, always click the blue **Publish** button at the top left to make your edits live to the world!

## Chapter 6: Emergency Hotlines & One-Touch Calling

LIFE SAFETY

On mobile devices, every emergency hotline card is programmed as an instant **tap-to-call link** ( `tel:15` , `tel:1099` , etc.). If a woman in danger taps on Police 15, her phone immediately dials the police emergency helpline.

To update emergency phone numbers: Go to **Appearance → Customize → 6. Home — Emergency Hotlines**.

## Chapter 7: Brand Identity, Logo & Tagline

BRANDING

The brand name is configured as **Amnnisa** with double 'n' across all components.

- **Header Brand**: Displays `Amnnisa SAFETY PLATFORM` .
- **Logo**: To upload your custom logo image, open **Appearance → Customize → 0. Header Brand, Logo & Tagline** and select **Upload Custom Logo**. Both the header and footer logos will update automatically.

## Chapter 8: Security & Performance Highlights

PROTECTION

| SECURITY FEATURE | HOW IT PROTECTS YOUR PLATFORM |
|---|---|
| **Invisible Honeypot** | All forms contain an invisible trap field. Spambots automatically fill it and get silently dropped, without bothering real users with annoying captchas. |
| **IP Rate Limiting** | Restricts submissions to 8 per 10 minutes per IP address to prevent form flooding and DDoS attacks. |
| **XML-RPC Disabled** | Blocks automated password guessing and amplification attacks targeting `xmlrpc.php` . |
| **Author Enumeration Block** | Prevents automated scanners from probing `/?author=1` to discover administrator usernames. |
| **HTTP Security Headers** | Enforces modern security headers ( `X-Content-Type-Options` , `X-Frame-Options` , etc.) to defend against clickjacking and MIME attacks. |

# Chapter 9: Frequently Asked Questions & Support

HELP & FAQ

### ? Why does "Pages" in WP Admin only show Sample Page?

Amnnisa is designed as a modern high-speed single-page application where all sections switch instantly without slow reloads. All content is edited visually in **Appearance** → **Customize** and **Team Members**. To set up your homepage cleanly: create a page named **Home** (select template: *Amnnisa Platform Full Template*) and assign it in **Settings** → **Reading**.

### ? What if an admin email notification is not arriving in Gmail?

Go to **Submissions** in WP Admin and click **Send Test Email**. If it displays a notice, follow Chapter 3 to generate a 16-letter Google App Password and enter it under **Appearance** → **Customize** → **12. SMTP Email Delivery**.

### ? How do I change the founder bio or quote?

Open **Appearance** → **Customize**. For the quote, click **4. Home — Founder Quote**. For the founder portrait and bio, click **9. Our Team — Founder Spotlight**.

### ? Is the website mobile responsive on iPhone and Android?

Yes. The layout adapts smoothly to all screen sizes from large 4K monitors down to compact 320px mobile screens, featuring app-style horizontal swipeable tabs, touch-friendly buttons, and iOS zoom prevention.
